- **Stogx Trading App -(Kartexa)** As a key member of the collaborative team, they played a vital role in developing Stogx, a robust and user-friendly stock trading app. Their expertise in Dart and Flutter allowed them to flawlessly design and implement meticulous frontend screens. Their proficiency with tools like VS Code and iOS/Android Studio ensured seamless integration. Together with the dedicated team, they created a professional and innovative real-time project for buying and selling stocks.:

## CERTIFICATION

- **Coding ninja : successfully completed DSA c++ course with great percentage of 90 :**
- Certificates of participation: Flipkart grid 2022 team name (Runntime error) .
- Getting Started with Hacktoberfest 2021 workshop(IEEE DTU)
- certificates of udemy: Android java masterclass become a android developer
- Certificate of Developing Soft Skills and personality on NPTEL.
- Cloud Readiness Associate Cloud Engineer Track Course - By Google

## HONORS AND AWARDS

- Manage to maintain a 7.0 GPA while working and studying full time.
- Got a chance in coding ninja for a 4 months TA ship
- Level 5 coder at code studio with 2563 Pts
- Solving 100+ questions on leetcode and more on going

## PUBLICATION

- **Research Paper: Technology Cross Platform approaches for Native and hybrid to Mobile Application Development.:**  
Research paper published at International Journal of Innovative Science And Research Technology,ISSN NO:- 2456-2165 Volume 8—Issue 5—May-2023

## VOLUNTEER EXPERIENCE

- . Event Organizer at my college and part of the protenix club niet where i manage the event and under me there is working group of college students
